

Week 2 – Day 2 Assignment

Task 1 : DOM to Selenium Code:

Model Used : `openai/gpt-oss-120b`

Request :

```
{
  "messages": [
    {
      "role": "user",
      "content": "Extract the below given DOM : <input type=\"text\" size=\"20\"
autocomplete=\"off\" id=\"ext-gen246\" name=\"id\" class=\" x-form-text x-form-
field\" style=\"width: 212px;\"> and provide me the selenium java code.
Instructions: Do not use ID if the value has number in it. Provide only java code
and no explanations needed"
    }
  ],
  "model": "openai/gpt-oss-120b",
  "temperature": 0.1,
  "include_reasoning": true
}
```

Response :

```
{
  "id": "chatcmpl-1e154dac-2eaf-4999-8ff8-9a74ee1947cb",
  "object": "chat.completion",
  "created": 1775401664,
  "model": "openai/gpt-oss-120b",
  "choices": [
    {
      "index": 0,
      "message": {
        "role": "assistant",
        "content": "```\njava\nimport org.openqa.selenium.By;\nimport\norg.openqa.selenium.WebDriver;\nimport org.openqa.selenium.WebElement;\nimport\norg.openqa.selenium.chrome.ChromeDriver;\n\npublic class ExtractInput {\n    public static void\nmain(String[] args) {\n        // Set path to chromedriver if needed\n        //\nSystem.setProperty(\"webdriver.chrome.driver\", \"./path/to/chromedriver\");\n\n        WebDriver\ndriver = new ChromeDriver();\n        try {\n            driver.get(\"http://your-website-url.com\");\n        }\n    }\n}\n```"
      }
    }
  ]
}
```

```

replace with actual URL\n\n      // Locate the input without using the numeric ID\nWebElement input = driver.findElement(\n      By.cssSelector(\"input[type='text'][name='id'].x-  
form-text.x-form-field\")\n      );\n\n      // Example actions\n      String placeholder =  
input.getAttribute(\"placeholder\");\n      System.out.println(\"Placeholder: \" +  
placeholder);\n\n      // Or send keys\n      input.clear();\n      input.sendKeys(\"Sample  
text\");\n  } finally {\n      driver.quit();\n  }\n}\n```,

```

"reasoning": "The user wants Selenium Java code to extract the given DOM element. They say \"Extract the below given DOM ... and provide me the selenium java code. Instructions: Do not use ID if the value has number in it. Provide only java code and no explanations needed\". So we need to give Java code that locates the element without using ID because ID contains numbers. Use other attributes like name, class, type, etc. Provide code snippet. Should be just Java code, no explanation. Ensure no ID usage. Use By.cssSelector or By.xpath. Provide code that extracts element (maybe get text or send keys). Provide only code. No extra text."

```

    },
    "logprobs": null,
    "finish_reason": "stop"

Andhra Pradesh flood

Rain in Vijayawada.

Planning your day in South Indian cities of

Hyderabad, Amaravati, Bengaluru, Thiruvananthapuram, or Chennai? Here's what the

weather has in store.

Weather forecast for Monday, 1 December, as reported by the

India Meteorological Department early on the day.

Hyderabad: Cloudy

sky

Hyderabad is expected to have a generally cloudy sky with light rain or drizzle [...]

Temperatures will range between a minimum of 18°C and a maximum of 22°C. Humidity

levels will vary between 54 percent and 95 percent.

No weather warnings have been issued.

Thiruvananthapuram: Thundershowers

Thiruvananthapuram is expected to have a partly cloudy sky with one or two spells of rain or

thundershowers.

Temperatures are likely to range between a low of 24°C and a high of

31°C. Humidity levels will vary between 70 percent and 85 percent.

Light to moderate rainfall is likely.

Chennai: Moderate rain

Chennai is expected to have a partly cloudy sky with the possibility of moderate rain or

thunderstorm.

Temperatures are expected to range between a low of 25°C and a high of

29°C.

Thunderstorm accompanied by lightning is likely.

Planning your day in South Indian cities of Hyderabad, Amaravati, Bengaluru, Thiruvananthapuram, or Chennai? Here's what the weather has in store.

Andhra Pradesh flood

Rain in Vijayawada.

Planning your day in South Indian cities of Hyderabad, Amaravati, Bengaluru, Thiruvananthapuram, or Chennai? Here's what the weather has in store.

Weather forecast for Monday, 1 December, as reported by the India Meteorological Department early on the day.

### Hyderabad: Cloudy sky

Hyderabad is expected to have a generally cloudy sky with light rain or drizzle [...] Temperatures will range between a minimum of 18°C and a maximum of 22°C. Humidity levels will vary between 54 percent and 95 percent.

No weather warnings have been issued.

### Thiruvananthapuram: Thundershowers

Thiruvananthapuram is expected to have a partly cloudy sky with one or two spells of rain or thundershowers.

Temperatures are likely to range between a low of 24°C and a high of 31°C. Humidity levels will vary between 70 percent and 85 percent.

Light to moderate rainfall is likely.

### Chennai: Moderate rain

Chennai is expected to have a partly cloudy sky with the possibility of moderate rain or thunderstorm.

Temperatures are expected to range between a low of 25°C and a high of 29°C.

Thunderstorm accompanied by lightning is likely. [...]

### Thiruvananthapuram: Thundershowers

Thiruvananthapuram is expected to have a partly cloudy sky with one or two spells of rain or thundershowers.

Temperatures are likely to range between a low of 24°C and a high of 31°C. Humidity levels will vary between 70 percent and 85 percent.

Light to moderate rainfall is likely.

### Chennai: Moderate rain

Chennai is expected to have a partly cloudy sky with the possibility of moderate rain or thunderstorm.

Temperatures are expected to range between a low of 25°C and a high of

"content": "TNIE Logo white\nTNIE Logo white\n\n# Deep depression near Chennai triggers incessant rainfall; holiday declared for schools & colleges in four districts on Tuesday\n\nWaterlogging caused by heavy rains at Pattalam in Chennai on Monday, Dec 1, 2025.\n\nCHENNAI: The cyclonic storm Ditwah, which weakened into a deep depression on Sunday while bringing heavy rains to delta districts, reached closer to Chennai's coast on Monday with many parts of the city and nearby regions witnessing incessant rainfall since Sunday night.\n\nIn view of the rains, the district collectors of Chennai, Chengalpattu, Kancheepuram and Tiruvallur announced a holiday for schools and colleges on Tuesday. [...] With no holidays declared for schools in these districts, particularly Chennai, students and parents in many places in the city faced inconvenience in commuting to the schools.\n\nThe Greater Chennai Corporation said most parts of the city remained free from inundation. Low levels of stagnation in a few places in Manali, Tondiarpet and Adyar were being addressed with the deployment of pumps, the civic body said.\n\nWaterlogging caused by heavy rains at Pattalam in Chennai on Monday, Dec 1, 2025.\n\nFollow The New Indian Express channel on WhatsApp\n\nDownload the TNIE app to stay with us and follow the latest\n\n## Related Stories\n\nTNIE Logo white\n\nCopyright - newindianexpress.com 2026. All rights reserved. [...] As per the update, the deep depression (remnant of the cyclonic storm) moved slowly northwards at a speed of 3 km per hour and laid centered as of 11:30 am on Monday at southwest Bay of Bengal and adjoining areas of westcentral Bay of Bengal, about 50 km east-southeast of Chennai, 140 km northeast of Puducherry, and 160 km northeast of Cuddalore. The minimum distance of the centre of the deep depression from north Tamil Nadu-Puducherry coasts was about 35 km, the update said.\n\nAfter a few hours of break, the intense spell is back over Chennai and Tiruvallur Super-intense storms are now lashing Ponneri, Kavaraipettai, and nearby areas. \n \nNew cells are rapidly strengthening, and soon, rains will spread across other parts of the city too. Some spots in KTCC... pic.twitter.com/onZTUMcqrY",
